Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

We hereby request a corrected patent application publication for the subject application. The U.S. Patent and Trademark (PTO) published the subject application on November 11, 2004 using an incorrect specification instead of the specification as filed on December 22, 2003.

Specifically, although the Title, Inventors, Application Number, Filing Date and Related U.S. Application Data printed on the cover page of the published application are correct, the Abstract differs substantially from that which was submitted with the application on December 22, 2003. In addition, with the exception of the drawings, the entire specification,

including the Related Application, Federal Funding, Background of the Invention, Brief Description of the Drawings, Detailed Description of the Invention, Examples and Claims are totally different from the specification that was submitted on December 22, 2003.

The Request for Corrected Patent Application Publication is being filed within two months from the date of the patent application publication pursuant to 37 C.F.R. §1.221(b).

Although it is believed no fees are due, authorization is granted to charge any fees that may be due in this matter to Deposit Account No. 08-0380.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
